

Critical Care Newborn Services is currently seeking an experienced neonatology candidate to join our 3 person private practice neonatology group. We currently practice in a 46 bed unit and are a level 3 NICU with all the high-level equipment and ventilators. We strive for high quality, outstanding VON outcomes, and efficiency. We deliver about 3,500 babies here and are still trying to grow. We are one of the busiest delivery hospitals in the Ochsner Health System. We have a transport team that drives to local nurseries for transports.

We are seeking a neonatologist with experience in a busy NICU who is seeking a different practice environment where quality, efficiency, collaboration, and collegiality are paramount. Flexibility and openness to our patient management and communication style, which contribute to highly efficient patient care and quality outcomes, are essential for our group and the entire NICU staff.

We have 24/7/365 NNP coverage for our Level 3 NICU. Our neonatologists take call from home. As a small, private practice group, we prioritize collaboration and work-life balance. Compensation is based on experience.

Lafayette is in the middle of the state of Louisiana. It is 2.5 hours to New Orleans, about 1 hour to the state capital of Baton Rouge, and 3.5 hours to Houston, Texas. The University of Louisiana at Lafayette is located here. It is a premier public research university designated as R1 (Very High Research Activity). It is ranked among the top national universities by U.S. News & World Report 2026.

Lafayette is a great place to live, work, and raise a family. We all love the warm community, the family atmosphere, and the culture here in Lafayette. It is a tourist destination to experience the Acadian culture and food. Our temperate climate allows for many outdoor activities and festivals that make living here a pleasure for family. The cost of living in Lafayette is lower than the national average.
